39-01-01.1. Declaration of legislative intent. The legislative assembly in adopting title 39 recognized that the development of a modern and integrated highway system which is so essential to safe and efficient highway transportation represents a large investment of public funds. To ensure maximum public benefits from such investment, authority has been vested in appropriate agencies of government for the establishment, construction, maintenance, and operation of needed road facilities, within the limits of funds made available.

Additionally, the legislative assembly recognizes that other functions of government, established pursuant to title 39 to govern the ownership and use of motor vehicles, also are supported by public funds and render important public services which contribute to the safe and efficient use of roads and streets. The responsibilities of state government include such functions as vehicle registration and titling, driver licensing, financial responsibility, police traffic supervision, accident investigation and reporting, and use of accident records, traffic operations, and similar functions conducted under motor vehicle laws affecting motor vehicles and their use.

In fulfilling these responsibilities, the legislative assembly recognizes the necessity that individual prerogatives be considered secondary to the general welfare and so it is expected that the officials will adopt such reasonable policies, procedures, rules, and regulations as may be necessary, within the authority granted by law, and in so doing shall make appropriate use of recommended standards developed by recognized official groups to ensure a desirable level of uniformity throughout the state and with other states. Such uniformity is especially important in the use and application of uniform signs, signals, and markings.

It is expected, further, that the officials will cooperate with each other where such cooperation is essential, and not otherwise prescribed by law. Moreover, there is also need for more effective coordination of activities among all branches and levels of government in carrying out their respective traffic safety responsibilities, including the governor's office, the state legislative assembly and city councils, the administrative, enforcement, and judicial officials of the state and its political subdivisions. In all matters of mutual concern, and where appropriate, cooperation is also encouraged among state officials, officials of other states and the federal government, and other responsible groups, both public and private.

Highway transportation is a dynamic force in our society and is influenced by new developments and changing public needs. To keep abreast of foreseeable adjustments, it is expected that the officials will engage in such research and planning as may be necessary and as may be provided for in this title. Such efforts should be conducted in cooperation with all interested public and private groups, and directed towards the development of realistic traffic accident prevention programs to guide legislative decisions and enlist public support in meeting immediate and potential needs.

In keeping with the policies herein enunciated, it is the intent of the legislative assembly to equip each function with the necessary authority to maintain an adequate level of performance in all functions concerned with the ownership and use of motor vehicles, as they are established in title 39, consistent with the expanding needs of highway transportation, in order to protect the public safety, promote the general welfare, and advance the economy of the state.

Except as otherwise provided in this section, any insurance policy providing coverage of state-owned motor vehicles must provide, at the request of a senior citizens group prior to the issuance or renewal of the policy, for the inclusion of buses, vans, or other motor vehicles used by the senior citizens group to transport members. The state agency negotiating the insurance policy may require payment by a senior citizens group for any increase in the premium rate charged to the state agency which is attributable to the coverage provided to that senior citizens group. The state agency shall provide by rule for the payment by the senior citizens group of the premium portion attributable to the group's coverage under the policy. The state agency may refuse to provide coverage to a senior citizens group if the coverage would hinder the ability of or not allow the state to obtain insurance.

39-01-09. Parking meters prohibited. It is unlawful for the state of North Dakota, its political subdivisions, counties, cities, and the state department of transportation to establish and maintain any mechanical device or devices known as "parking meters", or by whatever name designated, requiring the deposit therein of coins or tokens for the privilege of parking cars or other vehicles upon the streets and highways in the state of North Dakota. Any and all ordinances and resolutions now existing authorizing the establishment and maintenance of such mechanical devices or parking meters, or by whatever name designated, are hereby declared null and void.

39-01-10. Proof of payment of registration fees and taxes. The director of the department of transportation may require all owners or operators of motor vehicles using the highways of this state or registered in this state to show proof of the payment of all proper taxes and registration fees upon such motor vehicles.

39-01-11. Nonresident motor vehicle user - Service upon. The use and operation by a resident of this state or that person's agent, or by a nonresident or that person's agent, of a motor vehicle upon or over the highways of this state must be deemed an appointment by such resident when that person has been absent from this state continuously for six months or more following an accident or by such nonresident at any time, of the director of the department of transportation of this state to be the person's true and lawful attorney upon whom may be served all legal process in any action or proceeding against the person growing out of the use or operation of the motor vehicle resulting in damages or loss to person or property, whether the damage or loss occurs upon a public highway or upon public or private property, and such use or operation constitutes an agreement that any such process in any action against the person which is so served has the same legal force and effect as if served upon the person personally, or, in case of the person's death, that such process has the same legal force and effect as if served upon the administrator of the person's estate. Service of the summons in such case may be made by delivering a copy thereof to the director with a fee of ten dollars.

39-01-12. Mailing notice to defendant upon service of nonresident motor vehicle user. Within ten days after service of summons as provided in section 39-01-11, notice of such service together with a copy of the summons and complaint in the action must be sent by the

plaintiff to the defendant at the defendant's last-known address by registered or certified mail with return receipt requested, and proof of such mailing must be attached to the summons.

39-01-13. Director to keep record of process received for nonresident motor vehicle users. The director shall keep a record of all process served upon the director under the provisions of section 39-01-11. Such record must show the day and hour of service. If any defendant served under section 39-01-11 has made proof of financial responsibility by filing a certificate of insurance coverage, as provided in section 39-16.1-09, the director shall mail a copy of such summons and complaint to the insurance carrier named in such certificate.

39-01-14. Protecting rights of defendant served as nonresident motor vehicle user. When service has been made as provided in section 39-01-11, the court, before entering default judgment, or at any stage of the proceeding, may order such continuance as may be necessary to afford the defendant reasonable opportunity to defend any action against the defendant.

39-01-15. Parking privileges for mobility impaired - Certificate - Revocation - Continuing appropriation - Penalty.

1. Any mobility-impaired person who displays prominently upon an automobile parked by that person or under that person's direction and for that person's use, the distinguishing certificate specified in subsection 4 or license plates issued under section 39-04-10.2 is entitled to courtesy in the parking of the automobile. Provided, however, that any municipality may, by ordinance, prohibit parking on any street or highway for the purpose of creating a fire lane, or to provide for the accommodation of heavy traffic during morning and afternoon rush hours, and the privileges extended to such impaired persons do not apply on streets or highways where and during such times as parking is prohibited.
2. A mobility-impaired person as used in this section includes any person who uses portable oxygen; requires personal assistance or the use of crutches, a wheelchair, or a walker to walk two hundred feet [60.96 meters] without rest; is restricted by cardiac, pulmonary, or vascular disease from walking two hundred feet [60.96 meters] without rest; has a forced expiratory volume of less than one liter for one second or an arterial oxygen tension of less than sixty millimeters of mercury on room air while at rest and is classified III or IV by standards for cardiac disease set by the American heart association; or has an orthopedic, neurologic, or other medical condition that makes it impossible for the person to walk two hundred feet [60.96 meters] without assistance or rest.
3. Repealed by S.L. 1989, ch. 319, § 6.
4. The director may issue, for a fee of three dollars per year or part of a year, a special identifying certificate to any mobility-impaired applicant upon submission by the applicant of a completed application and a written statement issued by a qualified physician or an advanced practice registered nurse to the director that the applicant is a mobility-impaired person within the criteria of subsection 2. The director shall waive the requirement for a written statement from a qualified physician or an advanced practice registered nurse if the applicant has previously submitted an application containing a certification from a qualified physician or an advanced practice registered nurse that the applicant's impairment is not reversible. The application must include the information required by the director. The physician's or advanced practice registered nurse's statement must describe how the impairment limits the applicant's mobility and daily life functions of the applicant. The certificate is valid for a period, not to exceed three years, as determined by the director. A physician or an advanced practice registered nurse who provides a false statement that a person is mobility impaired for the purpose of that person obtaining a certificate under this subsection is guilty of an infraction for which a minimum fine of one hundred dollars must be imposed. A certificate issued under this subsection must be nine and one-half inches [24.13 centimeters] in height and three inches

[7.62 centimeters] in width and must bear, in white on blue, the internationally accepted symbol of access for the mobility impaired. The certificate must bear the expiration date and registration number assigned by the director. The director shall adopt rules governing the issuance of the certificate. A temporary certificate, valid for an initial period not to exceed three months, may be issued by the director for a fee of three dollars upon application supported by a physician's or an advanced practice registered nurse's statement. The director may issue a maximum of one additional temporary certificate for a fee of three dollars. The temporary certificate may be extended an additional period, not to exceed three months, upon application supported by a physician's or an advanced practice registered nurse's statement that the extension is warranted. Temporary certificates must be the same size as other certificates issued under this section and must be white on red. The director may issue a maximum of one additional certificate, if the applicant does not have license plates issued under section 39-04-10.2, for a fee of six dollars per certificate, to a mobility-impaired person to whom a certificate has been issued under this subsection. The additional certificates may only be used by or on behalf of the mobility-impaired person.

5. Except as provided in this subsection, two dollars of each fee for issuance of a certificate and one dollar of each fee for issuance of an additional certificate under this section must be deposited in the state highway department fund for purposes of defraying the cost of issuing the certificate. The rest of the fee, and the five dollar fee received for the issuance of an additional certificate under subsection 4, must be deposited in the state treasury and credited to the employment of people with disabilities fund. The fees deposited in the fund are hereby appropriated on a continuing basis to the committee on employment of people with disabilities of the department of human services for development of job opportunities for disabled individuals in this state. If a certificate is lost, mutilated, or destroyed, the person to whom the certificate was issued is entitled to a replacement. The person shall furnish proof satisfactory to the director that the certificate has been lost, mutilated, or destroyed, and shall pay a replacement fee of three dollars.
6. A certificate issued under this section must be hung from the rearview mirror of the motor vehicle whenever the vehicle is occupying a space reserved for the mobility impaired and is being used by a mobility-impaired person or another person for the purposes of transporting the mobility-impaired person. No part of the certificate may be obscured. A fee of five dollars may be imposed for a violation of this subsection.
7. An applicant may appeal a decision denying issuance of the certificate to the director. Written notice of the appeal must be received within ten business days following receipt by the applicant of notice of denial. The applicant has sixty days to provide additional supportive material to the director for purposes of deciding the appeal. The director shall affirm or reverse the decision to deny issuance of the certificate within thirty days after receipt of the supportive material. Written notice of the decision must be given to the applicant.
8. If a law enforcement officer finds that the certificate is being improperly used, the officer may report to the director any such violation and the director may, in the director's discretion, remove the privilege. Any person who is not mobility impaired and who exercises the privileges granted a mobility-impaired person under subsection 1 is guilty of an infraction for which a fine of one hundred dollars must be imposed.
9. Whenever any public or private entity designates parking spaces for use by motor vehicles operated by mobility-impaired persons, those reserved spaces must comply with the requirements of the Americans with Disabilities Accessibility Guidelines for Buildings and Facilities as contained in the appendix to title 28, Code of Federal Regulations, part 36 [28 CFR 36] and must be indicated by blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space. In

addition to blue paint, each reserved space must be indicated by an official sign approved by the director bearing the internationally accepted symbol of access for the mobility impaired. The sign must indicate that unauthorized use of the space is a nonmoving violation for which a fee of one hundred dollars must be imposed. For particular events, a public or a private entity may reserve additional parking spaces for use by motor vehicles operated by mobility-impaired persons. In that case, each temporarily reserved space must be indicated by a sign or other suitable means. A sign indicating that a space is reserved for the mobility impaired and blue paint on the curb or edge of the paved portion of the street or parking lot adjacent to the space, unless the space is a temporary mobility-impaired parking space, is sufficient basis for the enforcement of this section. A law enforcement officer shall enforce this section in any parking lot or parking facility, whether publicly or privately owned.

10. A person may not stop, stand, or park any vehicle in any designated parking space that is reserved for the mobility impaired unless the vehicle displays a mobility-impaired identification certificate issued by the director to a mobility-impaired person. A mobility-impaired person may not permit the use of a certificate issued under this section by a person who is not mobility impaired when that use is not in connection with the transport of the mobility-impaired person. The registered owner of a vehicle may not allow that vehicle to be used in a manner that violates this subsection. Proof of intent is not required to prove a registered owner's violation of this subsection. The registered owner, however, may be excused from a violation if the owner provides the citing authority with the name and address of the person operating the vehicle at the time of the violation. A vehicle may temporarily use a space reserved for mobility-impaired persons without a mobility-impaired certificate for the purpose of loading and unloading mobility-impaired persons. A violation of this subsection is a nonmoving violation for which a fee of one hundred dollars must be imposed. Notwithstanding section 29-27-02.1, fifty percent of the fee imposed and collected under this subsection is appropriated on a continuing basis to the local committee on persons with disabilities, if one exists in the city in which the violation occurred, for the development of job opportunities for disabled individuals in the community.
11. Any motor vehicle licensed in another state which displays a special authorized vehicle designation issued by the licensing authority of that state for vehicles used in the transportation of mobility-impaired persons must be accorded the same privilege provided in this section for similar vehicles licensed in this state if the laws of the other state provide the same privileges to North Dakota motor vehicles displaying the special identifying certificate authorized in this section.
12. An entity that violates the requirements of subsection 9 is guilty of an infraction if the entity does not comply with subsection 9 within sixty days after receiving official notification of the violation.
13. The department shall issue a mobility-impaired parking permit for a vehicle owned and operated by care providers licensed by the state, veterans-related organizations, and other entities that regularly transport mobility-impaired individuals for use by those providers and entities to park in designated parking spaces while transporting mobility-impaired individuals.

39-01-16. Hearing on alleged violations. Any person having information that a licensed dealer has violated any provisions of this title may file with the director an affidavit specifically setting forth such violation. Upon receipt of such affidavit, the director shall investigate the violation alleged in the affidavit. If, after investigation, the director determines that the dealer's license will be revoked or suspended, a notice of intent to revoke or suspend the license must be mailed to the dealer by certified mail. The notice must provide the dealer with an opportunity for a hearing prior to the effective date of the license revocation or suspension. A record of such hearings must be made by stenographic notes or use of an electronic recording device.

If after such hearing the director finds the violation charged in the affidavit has been proved by the evidence, an order must be served on the licensee revoking or suspending the dealer's license for a period of time to be determined by the director. Such action may be appealed to the district court by following the appeal procedure set forth in chapter 28-32, except that the order revoking or suspending the license is ineffective while the appeal is pending.

The director has the power to appoint an administrative hearing officer to conduct the hearing, administer oaths, and subpoena and examine witnesses. The administrative hearing officer shall submit the findings to the director for consideration and final decision.

Any witness called by the prosecution, except a peace officer while on duty, shall receive the same fees and mileage as a witness in a civil case in district court.

39-01-17. Authority to administer oaths and certify copies of records - Admissibility of records.

1. Officers and employees of the department designated by the director are, for the purpose of administering the motor vehicle laws, authorized to administer oaths and acknowledge signatures, and must do so without fee.
2. A certified copy of any record, electronic or original, maintained by the director relative to title 39 is admissible in any judicial proceedings or administrative hearing in the same manner as the original of the record.
3. In response to a subpoena, or upon the request of any appropriate government or judicial official, the director shall provide a duly certified copy of any book, paper, entry, record, or other document of that agency. This certified copy may consist of a photocopy or computer printout of the requested document certified by the director or a duly authorized representative.

39-01-18. Dealer bond cancellation - Reinstatement - Revocation of license. Any dealer required to be bonded by the provisions of title 39 whose bond is canceled by the surety company shall file a new bond with the department before the effective date of the cancellation. The effective date of a bond cancellation must be thirty days after notification by certified mail to the department from the surety company. Any dealer failing to maintain a current surety bond with the department shall return the dealer's license and dealer's plates to the department on or before the effective date of the cancellation. Failure to return the dealer's license or dealer's plates results in automatic revocation by operation of law. The department may order the superintendent to take possession of any dealer's license or dealer's plates not returned to the department as required in this section. The department shall reinstate the dealer's license and dealer's plates if a new bond is received within thirty days of the revocation.

39-01-19. Permits for vending machines at rest areas. A vending machine that allows access to a tobacco product may not be placed or remain upon a rest area, and any other vending machine may not be placed or remain upon a rest area under the supervision of the director without a permit from the director. The director shall charge a fee for the issuance of a vending machine permit. The amount of the permit fee must relate to the department's actual cost of administration, annual review, and enforcement of the permit process, but may not exceed twenty-five dollars annually. The permit process may not be affected by the content of a publication. The director shall require permittees to comply with appropriate indemnification, insurance, and other risk management provisions of the permit. Vending machines must be secured in a manner that prevents tipping and moving, deters theft, and leaves state property undamaged. Plexiglass, safety glass, or other shatter-resistant materials must be employed in windows or displays. All vending machines must be sufficiently enclosed to prevent the distributed product from inadvertently being removed or blown from the machine or weathered by the elements. Stolen or damaged vending machines do not result in liability to the department and must be repaired, restored, or replaced within thirty calendar days. All cashboxes and accesses to cashboxes must be metal and securely locked in place. All vending machines must be placed in a well-lighted area visible from the rest area roadway. All vending machines must

be placed on a route allowing parallel access by motorized or standard wheelchairs, with at least sixty-six inches [1676.400 millimeters] of clear width. A vending machine may not have a component or function used by the public which requires more than five pounds [2.268 kilograms] of force to be applied. The height of controls, doors, or access points necessary for use by the public may not exceed sixty inches [1524 millimeters]. The director may determine the maximum number of vending machine placements at a given rest area. Priority must be given to vending machines placed pursuant to the Randolph Sheppard Act [Pub. L. 74-732; 49 Stat. 1559; 20 U.S.C. 107], as administered by the vocational rehabilitation division of the department of human services under section 50-06.1-13. When, after allowing for the placement of vending machines pursuant to the Randolph Sheppard Act [Pub. L. 74-732; 49 Stat. 1559; 20 U.S.C. 107], the director determines that the number of permit applications for a particular rest area would exceed the remaining available space or would prevent compliance with this section or other law, the director shall grant permits by means of a lottery, with permits allocated pro rata according to the number of applications for each type. The permittee is solely responsible to ensure that any trash, wrapping, boxes, or debris, generated when stocking or servicing vending machines is not left on or at the rest area. The permittee is solely responsible for all installation, maintenance, replacement, inspection, access area cleaning, and stocking of vending machines. Vandalism and graffiti on vending machines must be repaired or removed within fourteen days of written notice by the director. The permittee must inspect and stock vending machines as needed, but at least monthly, to provide adequate service to the public. Vending machines removed for repair or for other reasons must be restored or replaced by the permittee within thirty days. Vending machines in violation of this section or any other applicable law may be removed by the director fourteen days after notice of violation is provided and without liability to the director. Vending machines judged by the director to pose a risk to safety may be removed immediately without liability to the director and without prior notice to the permittee. The director shall retain any removed vending machines for thirty days to allow retrieval by the permittee, after compensation to the director for removal costs. The director may dispose of or sell machines not retrieved within thirty days of removal, but removal costs must be satisfied only to the extent of proceeds received by the director. The director has a cause of action to recover any deficiency, attorney's fees, and litigation expenses. The director, upon the determination that a rest area must be closed for a period of greater than thirty days, may order the permittee, at the permittee's expense, to remove all vending machines in a manner that does not damage state property, or remove all product and money and place upon the vending machine a prominent notice that all product and money have been removed. Should the director determine that removal of vending machines is necessary to conduct repairs, construction, surveys, or other duties of the department, the permittee, at the permittee's expense, shall remove all vending machines in a manner that does not damage state property, upon fourteen days' notice. The current address and telephone number where customer service or business is conducted by the permittee must be legibly and prominently posted upon the vending machine. The director shall cancel the permit should the permittee remove vending machines, except as provided in this section. The cost of any removal must be borne by the permittee. The permittee, at the permittee's own expense, must restore the site the machine formerly occupied to the satisfaction of the director. For purposes of this section, "vending machine" means any device that allows access to a newspaper, magazine, beverage, concession, or other item for public consumption or use. For purposes of this section, "permittee" means any person or organization, including any corporation, partnership, firm, or any other legal entity capable of owning property and transacting business, which has applied for a permit under this chapter. For purposes of this section, "notice" consists of a written communication and must be deemed to have occurred within seventy-two hours of mailing, if mailed within North Dakota, or one hundred twenty hours of mailing, if mailed outside North Dakota. "Notice" to a vendor of the condition of a vending machine also occurs if a period of time greater than the required inspection interval for the vending machines has passed.
