

164.938 Rural health education program.

The University of Louisville shall develop a rural health education program which shall:

- (1) Coordinate clinical rotations for health science students;
- (2) Maintain rural health science libraries;
- (3) Expand a family practice residency program at a regional medical center with decentralized clinical practice sites;
- (4) Implement the provisions of KRS 164.935;
- (5) Maintain clinical training sites for students in the health professions; and
- (6) Provide continuing education for health care professionals.

Effective: July 13, 1990

History: Created 1990 Ky. Acts ch. 482, sec. 16, effective July 13, 1990.
