

317A.130 Sanitation requirements and prohibited practices.

No instructor, student, cosmetologist, apprentice, or nail technician shall:

- (1) Knowingly continue to practice while he has an infectious or communicable disease;
- (2) Fail to provide the head rest of each chair with a relaundersed towel or a sheet of clean paper for each person;
- (3) Fail to place around the patron's neck a strip of cotton, towel, or neck strip so that the haircloth does not come in contact with the patron's skin;
- (4) Use on one (1) patron a towel that has been used upon another patron, unless the towel has been relaundersed;
- (5) Use on any patron any razor, scissors, tweezers, comb, sachet, rubber disc, or part of vibrator or other similar equipment or appliance that comes into contact with the head, face, hands, or neck of a patron, until the equipment or appliance has been immersed in boiling water for ten (10) minutes or in a sterilizing solution and placed in a wet or dry sterilizer until again used. Only those methods of sterilization that are bacteriologically effective and approved by the Department for Public Health shall be used; or
- (6) Use on any patron a liquid nail enhancement product containing monomeric methyl methacrylate, also known as dental acrylic monomer, for the purpose of creating artificial nail enhancements in the practice of cosmetology and nail technology.
