

**224.50-410 Disposal of lead acid batteries.**

- (1) No person shall knowingly:
  - (a) Dispose of lead acid batteries by placing them in mixed solid waste;
  - (b) Accept lead acid batteries for disposal in a landfill or an incinerator; or
  - (c) Discard or abandon a lead acid battery in any manner except as allowed by subsection (2) of this section.
- (2) Proper disposal of lead acid batteries shall mean delivery to:
  - (a) A retail seller of new lead acid batteries;
  - (b) A person who sells lead acid batteries at wholesale;
  - (c) A permitted secondary lead smelter;
  - (d) A facility which will recycle the batteries by extracting the lead and chemical components for reuse; or
  - (e) A collection center which delivers to a smelter or a recycling facility.

**Effective:** July 13, 1990

**History:** Created 1990 Ky. Acts ch. 84, sec. 1, effective July 13, 1990.

**Formerly codified as** KRS 224.2502.
