

278.605 Construction prohibited until means for disposal of high level nuclear waste approved by United States government.

No construction shall commence on a nuclear power facility in the Commonwealth until the Public Service Commission finds that the United States government, through its authorized agency, has identified and approved a demonstrable technology or means for the disposal of high level nuclear waste.

Effective: July 13, 1984

History: Created 1984 Ky. Acts ch. 15, sec. 2, effective July 13, 1984.
