The commissioner shall inspect all nursery stock being grown in North Dakota at least once each year and may enter and inspect any nursery or place of business during normal business hours.

4-21.1-04. Authority for abatement - Removal from sale.

The commissioner may, upon giving notice to the owner or the owner's agent, destroy, treat, or remove from sale, at the owner's expense, any nursery stock offered for sale that is found to be not viable, not accompanied by a certificate of inspection, not labeled correctly, or infested with a pest.

4-21.1-05. Certification of nursery stock.

A certificate of inspection may be issued annually by the commissioner for nursery stock grown in licensed nurseries within North Dakota that is found to be practically free from damaging pests. Certificates expire December thirty-first unless canceled at an earlier date. Certification may be withheld when nursery stock is infested with a pest or if weeds or other objects prevent the commissioner from making an adequate inspection of the nursery stock. All nursery stock being offered for sale within North Dakota must be from officially inspected sources. A copy of a certificate of inspection from the state of origin must accompany each commercial lot or shipment of nursery stock that is transported into or offered for sale within

North Dakota. All reproductions of the North Dakota certificate of inspection needed for shipping purposes must be approved by the commissioner.

4-21.1-06. Nursery license - Fee.

No person may sell nursery stock without a license issued by the commissioner. Licenses expire December thirty-first unless revoked at an earlier date. An application for renewal of license with any information requested by the commissioner must be submitted and accompanied by a fee of fifty dollars on or before December thirty-first each year. A separate license is required for each place of business. The fee for each additional license, other than the principal place of business, is ten dollars. No license may be issued to a grower unless the grower has been issued a certificate of inspection.

All nursery stock offered for sale or distribution must be in a viable condition and must be stored and displayed under conditions that will maintain its viability.
